Abstract:

Keywords: Four or more keywords (Transdisciplinary, complexity, immigration, etc.)

1 Introduction

(no blank between paragraphs. The first paragraph of sections will not have an indent, following paragraphs will have an indent. See below)

This section should be brief and should highlight why it is important, preferably with no subheadings. It should define the object of the work and its importance.

The current state of the art related to the research field should be reviewed thoroughly and key publications cited. Finally, briefly mention the main goal of the work and highlight the major conclusions.
